What’s On

We want to hear all about your society events, and showcase them on our ‘What’s On’ section! This makes it easy for EUSA members to view your events, and book tickets. We’ve created a simple ‘Shout about it’ form for society event organisers to fill in.

We will look to accommodate all requests however, please understand that in some cases we can’t guarantee to put your event onto the website.

Please also note, that in order for your event to be considered, all event details and artwork must be received a minimum of two weeks before the event.

Social media

- Give your event a boost!
- Engage your target audience!
- Increase ticket sales!

You all know how effective social media is. We’d love to help you out, so let us know what events you’re putting on via the ‘Shout about it’ form, and we’ll try to publicise them on our social media channels too.

Your Society Profile

The most viewed page on the EUSA website is the society listing page. Because of how search engines work, your profile here will almost certainly show up to prospective members and external companies before any standalone websites your society creates.

As such, the way your society presents itself here has a real impact on people’s opinion of your society. Freshers consistently say they dismissed societies who did not look engaging and friendly on their profile.

As well as being the first thing people see of your society, you can:

- View your members
- Sell tickets
- Send messages
- Link to Facebook, Twitter, or other web pages.

Check out this comprehensive guide to managing your Society Profile.
